Professional Designations

* The Chartered Financial Analyst (“CFA”) designation requires the holder to pass three six-hour exams, possess a bachelor’s degree (or equivalent, as assessed by CFA institute) and have 48 months of qualified, professional work experience. CFA charter holders are also obligated to adhere to a strict code of ethics and standards governing professional conduct.

** The Certified Financial Planner® (“CFP”) designation requires the holder to meet education, examination, experience and ethics requirements, and pay an ongoing certification fee. A bachelor's degree (or higher), or its equivalent in any discipline, from an accredited college or university is required. Students are required to complete course training in nine core financial topic areas, sit for a 10 hour CFP Board Certification Examination, acquire three years full-time or equivalent (2,000 hours per year) part-time work experience in the financial planning field and undergo an extensive background check—including an ethics, character and criminal check. CFP® professionals must complete 30 hours of continuing education (CE) accepted by CFP Board (including completion of 2 hours of CFP Board approved Ethics CE) every two years.

*** A Certified Public Accountant (“CPA”) is licensed and regulated by the applicable state board of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting), minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA), and successful passage of the Uniform CPA Examination. In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two year period or 120 hours over a three year period). Additionally, all American Institute of Certified Public Accountants (AICPA) members are required to follow a rigorous *Code of Professional Conduct* which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services.
